

EXTREME MAKEOVER

There's a reason renovation shows make for television ratings gold: Transformation is a thrill. So for our third annual "Renovations" issue, we selected three stunning remodels by New England design professionals. Charlie Allen Restorations tackled a basement kitchen (Page 26), Megan McClure Interiors added color to a tired living room (Page 28), and Lilley Dadagian Architects brought a faded bath into the light (Page 30). Their selections make for "before and after" masterpieces.

BEFORE

“When renovating this basement kitchen, proper lighting and a functional floor plan were essential. Using a wide variety of colors, textures, and materials ensured an engaging aesthetic.”

THE LIVING ROOM

MEGAN MCCLURE
Megan McClure Interiors,
 Duxbury, Massachusetts;
 781-934-6886,
meganmcclureinteriors.com

BEFORE

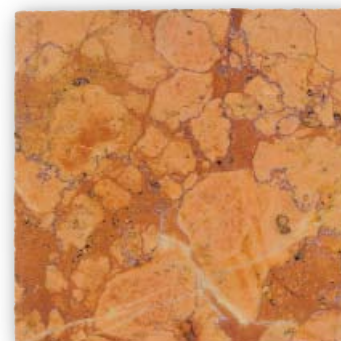

“This young family of five had emerged from the messy toddler years. While the floor plan changed very little, the many details and array of colors give the room a more worldly feeling.”

BEFORE

“Our goal with this redesigned bathroom was to create a warm and inviting space by introducing more natural light and complementary materials.”
